

## ***ADVANCED PROLOG MANAGER 2007***

This one-day training class will provide advanced knowledge for current Prolog Manager 2007 users.

This is a hands-on workshop taught by instructors who are experts in both construction project management and the software. Our classroom emphasis is on the effective use of the application in a real-world, practical setting, rather than on a myriad of technical details.

Training materials, continental breakfast and afternoon snack are included.

<b>DURATION:</b>	One Day
<b>COST:</b>	\$495 per Person
<b>PREREQUISITE:</b>	Basic Prolog Knowledge
<b>TIME:</b>	9:00am – 4:00pm
